# ORGANIZER'S NOTE

Dear Innovators and Inventors,

We invite you to participate in the 4th edition of the International Innovation & Invention Show E-NNOVATE 2023, which brings together the innovators around the world on the e-nnovate.eu platform!

E-NNOVATE is much more than an ordinary innovation show. It is an event where science meets business. E-NNOVATE boasts of a web platform with global reach and popularity [www.e-nnovate.eu](http://www.e-nnovate.eu) which will promote your innovative ideas on the international arena. Your participation in the event will allow you to present your achievements to a wide audience, establish interesting business relationships with potential partners globally and take part in several accompanying events.

E-NNOVATE's mission is to promote innovation on a global scale, combine science with business and support exhibitors in all activities disseminating scientific achievements. The E-NNOVATE show is intended for scientists, start-ups, large and small organizations, schools, universities and research institutes alike!

To provide a convenient means of participation to exhibitors around the globe, the show will be held in a hybrid format.

We cordially invite you to be a part of E-NNOVATE 2022.

Mrs. Edyta Wołczyk  
President, E-NNOVATE  
President & CEO, IBS GLOBAL

# ABOUT E-NNOVATE

**The LIVE edition (May 30-31)** will be dedicated to the presentation of inventions in traditional stalls, conferences, meetings, and facilitation of the Grand Prix awards, and special awards. This is part of the event where all the international participants will be able to establish new business relationships, interact with potential collaborators or scientific partners and take part in the interesting accompanying events.

**The cultural and networking tour (June 1)** will be an excellent opportunity to exchange experiences and knowledge between international delegates in the informal atmosphere and beautiful natural surroundings of Poland.

**The online edition (June 19-20)** will be dedicated to the evaluation of inventions by an international jury through online presentations from participants, online training, and panel discussions. It is intended for exhibitors who, due to the pandemic, are unable to participate in the event in person.
