We are pleased to invite you to participate in **E-NOVATE 2021**, the world's first **INTERNATIONAL INNOVATION FAIR**, connecting global innovators on traditional booths and a single virtual platform at the same time.

The **E-NOVATE 2021 on-site edition will be held in two modes:**

-  **Online via e-nnovate.eu platform,**
-  **traditionally on 8th – 9th of September 2021 in Bydgoszcz City, Poland.**

Participants can join virtual event or both traditional event.

THE ONLINE EDITION (22nd–24th June) was dedicated to inventions evaluation by the international jury, online training, and panel discussions. The event was a great success with over **200 Innovations** from across **16 countries** and over **20 categories** that were evaluated by **International Jury**. There were more than **27,500 visitors** online and more than **15,000 votes** were cast to choose the most popular innovation! The event was patroned by the **Ministry of Economic Development, Labour & Technology of Poland** and the **Patent Office of Poland**.

THE BYDGOSZCZ CITY ON-SITE EDITION (8th-9th of September) will be dedicated to inventions live presentations that were registered for the online edition, conferences, meetings, Grand Prix, and special awards ceremony. It is the part of the event where Polish and international participants can make up-and-coming relations, meet business or scientific partners, and participate in exciting conferences and panels.

This year, we invite you to present innovations at both traditional and virtual stands. It is the most effective form of presentation, allowing you to promote your solutions physically and virtually for the whole year.

E-NOVATE is the world's first-ever **INTERNATIONAL INNOVATION FAIR** That brought together the world's innovators on a unified virtual platform. E-NOVATE allows all the inventors to present their innovations in our **TRADITIONAL AND VIRTUAL BOOTHS** and make the world recognize you. Considering the possible travel restrictions in the pandemic scenario, this will help the innovators participate in E-NOVATE with ease! E-NOVATE 2021 is organized by **IBS GLOBAL** and patroned by the **Ministry of Economic Development, Labour & Technology of Poland** and the **Patent Office of Poland**. The event is supported by the prestigious UTP University of Science and Technology, Indian Innovators Association, International Federation of Inventors' Associations (IFIA), WIIPA, MIIA, MIICA, JASU, RICE and many other prestigious organisations across the globe.

E-NOVATE is the first event in the world dedicated to inventions and innovations that took place in real-time. On July 6-8 of 2020, the first edition of E-NOVATE had exhibitors from 16 countries worldwide who gathered on a shared internet platform to present their creativity and inventions. In total, 95 inventions were presented during the event.

However, E-NOVATE is not just an innovation & science fair. All participants could take part in a series of training and seminars. Topics covered the promotion of inventions and innovative companies based on Social Media Marketing, demand policy to promote innovation, Design Thinking for innovation, and possible business scenarios in the post-coronavirus era.

All the jury panels witnessed the great interest demonstrated by the participants. During the three days, 4000 online users visited E-NNOVATE.EU portal and the official site recorded almost 19,000 page views.

Considering the uncertain pandemic COVID-19 situation and the possible difficulties related to long journeys for foreign exhibitors, we provide two options for participation in the E-NNOVATE fair: traditional and virtual, allowing you to present your invention and participate in online events.

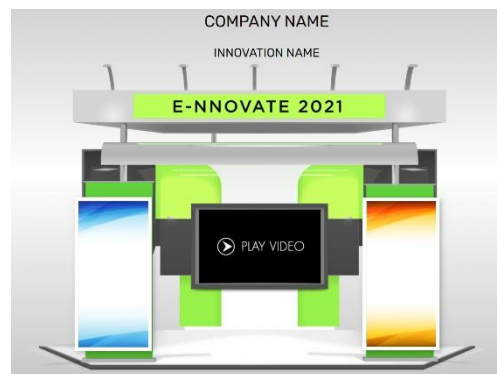

EVENT SCHEDULE for E-NNOVATE On-site Edition, Bydgoszcz, Poland*

E-NNOVATE is not just a platform. It is an ecosystem of like-minded people willing to impact the innovation space with synergy significantly. Being a digital platform E-NNOVATE has tremendous reach, which will propel innovative ideas to the world's farthest corners.

E-NNOVATE is designed for innovators, inventors, scientists, large and small companies, universities, and scientific institutes alike. With E-NNOVATE, the traditional expo booth experience is brought to life with our INNOVATIVE PLATFORM. It is a fantastic global one-stop-destination for innovators, technology buyers, and enthusiasts alike. E-NNOVATE gives the innovators an opportunity to virtually present and discuss with reputed jury members across the globe.

BOOTH DESCRIPTION

E-NNOVATE Virtual booth has a sleek and striking design. It allows the innovator to demonstrate two posters, one for the innovation, one for the company/organization/institution, and one video presentation! It enables the innovator to present inventions with maximum impact. Every single innovation will get its virtual booth, and the public can rate the innovations they like. For the first time in virtual event history, we are making the public part of the innovation grading process.
