Brief description (max 300 characters)	I invented Badminton Racket Lifting Posture corrector. The invention consists of a gyroscope, a speaker, a flash, data cables, and a charger. A gyroscope, a speaker, a flash are in these two parts. This should be on the upper arm and This should be on the forearm. We connect these with data cables.I have a right posture, the light is green. If I have a wrong posture, the light is red and the speaker makes a noise. I have to make my posture right.This invention can help coaches lighten the workload. My invention is not only for badminton but also for shooting.
